## EOG Resources to Sell Its Kitimat LNG Facility Stake and a Portion of its Horn River Basin Acreage

HOUSTON, Dec. 24, 2012 /PRNewswire/ -- EOG Resources, Inc. (NYSE: EOG), (EOG) through its Canadian subsidiary, EOG Resources Canada Inc. (EOG Canada), today announced the signing of a purchase and sale agreement for its interest in the Kitimat LNG facility to Chevron Canada Limited. The transaction, subject to approval by Canadian regulatory authorities, is expected to close by the end of the first quarter 2013. The agreement includes EOG Canada's 30 percent interest in the planned natural gas liquefaction and export facility on British Columbia's west coast and associated Pacific Trail Pipelines project, as well as approximately 28,500 undeveloped net acres in the Horn River Basin.

"While we still believe in the viability of the Kitimat project, our decision to exit is consistent with EOG's focus on domestic onshore crude oil production, which is generating more immediate reinvestment opportunities," said Mark G. Papa, Chairman and Chief Executive Officer.

Further details with respect to the terms of the sale are not being disclosed by the parties. RBC Capital Markets acted as financial advisor for Apache Corporation, Encana Corporation and EOG Resources in regards to the Horn River acreage aspect of this transaction.

EOG Resources Canada Inc. is a wholly owned subsidiary of EOG Resources, Inc. (NYSE: EOG). EOG is one of the largest independent (non-integrated) crude oil and natural gas companies in the United States with proved reserves in the United States, Canada, Trinidad, the United Kingdom and China.
